## Stainless-Block CB BC

### Advantages

An all-purpose, stainless pump in block-design for multipurpose usage in food industry, water supply, cooling technology, air-conditioning, filtration, shipbuilding, house and building technique, apparatus engineering, energy technique, process technology and general machine engineering.

There are a wide range of applications with various modifications and sealing systems. The demand of special motor executions, inspection by all specification societies, explosion-proof executions and customized special solutions are possible. This is the stainless steel pump for economical, reliable and long-lasting operation.

- easy maintenance by pull-back design
- closed impellers
- single- or double-acting mechanical seals
- stainless steel material
- operating pressure up to 10 bar
- temperature -25°C to +110°C
- viscosity up to 115 mm<sup>2</sup>/s
- special execution stainless steel covering
- flange connections acc. to EN 733

### Other types:

BC

food industry  
cleaning systems  
plant engineering  
water treatment

CIP cleaning in place  
demineralized water
